CPT Code Update: 2019

Make a smooth transition into 2019 by reducing claim denials

CMS has proposed momentous changes to Evaluation and Management (E/M) coding in an attempt to simplify, streamline and relax documentation requirements that may have unintended consequences and create a disproportionately negative impact on some specialties. Find out how your specialty will be impacted by these changes to the codes and guidelines. This program will cover pertinent information to keep your provider reimbursement on track all year.

Class Highlights

- Receive a breakdown of the new, revised, and deleted CPT® codes effective January 1, 2019.
- Learn about the separate bundled payment for an episode of care of Substance Use Disorders (SUD) treatment including potentially web-based routine counseling.
- Find out how your specialty will be impacted by these changes to the codes and guidelines.
- Which specialties stand to gain or lose money under the proposed payment changes?
