## Medicare & Compliance Changes for 2021

Every specialty that bills Medicare for services rendered will feel the squeeze in 2021!

The proposed Medicare Fee Schedule rule for 2021 includes Medicare payment reductions in the conversion factor, payment for outpatient/office E/M & analogous visits, and changes to coverage for opioid use disorder treatment. Changes are on deck for supervision of diagnostic tests by certain NPPs, pharmacists providing services incident to the physician services, medical record documentation for physicians and NPPs, and more. Learn about all the proposed guidelines for proper Medicare payment and compliance.

## CPT Code Update 2021

CPT® 2021 updates include: 329 changes 206 additions, 54 deletions, and 69 revisions.

The most impactful changes in 25 years are to the E/M section; specifically, for the office/outpatient visits (current code range 99201-99215). CPT code 99201 has been deleted for 2021 and new guidelines will be utilized to determine the level of visit for code range 99202-99215. The new guidelines require that a medically appropriate history and physical examination be performed and documented for this code range only. However, these two components will no longer be used in determining code level selection.
